

Signature
by Omega™

FULL ACCESS

yes, you can have it all

For spring 2014, Signature by Omega introduces a new door style, a new finish—and most exciting of all, Full Access.

Enjoy contemporary styling and every advantage of this sophisticated platform.

Increased interior space pairs with a clean-lined exterior to enrich modern, transitional and traditional designs throughout the Signature by Omega collection.

Unlimited creativity plus full access. Glamorous living, personalized space, and a refined set of choices, all to your standards. What a story.

Modern. Accessible. Signature by Omega.

the soul of modernity

Sleek lines, economy of formation and focus on surface. Signature's Full Access cabinetry supports high-style architectural flair, a visionary spirit of urban life. Any room can be a sophisticated engagement of the principles of modern design.

DRAMATIC CLARITY

Light, space, expansive planes: yes.
Dramatic wood grains contrasting
with silvery angles and accents: yes.
Artistically cut and custom-featured
island that establishes a focal point
of smooth lines, and exquisite clarity:
yes, yes, yes. You will love how these
cabinets form one uninterrupted line
of elegance. How very modern. Life is
easy when the living is easy.

modern styling

Subtle drama. Linear looks. Visual texture. Clean-lined design pairs with your personal take on the subject, speaking volumes when telling your story. For capturing Mid-Century aesthetics or the cool modern vibe of today, on-trend design elements are right at your fingertips with Signature Full Access.

◀ ▼ Tarin, the new essence of modern design. Featuring horizontal grain direction as a fundamental of contemporary styling, visual texture reflects the subtlety of woodgrain from a whole new viewpoint. Sleek styling is now served with a twist.

◀ Stainless steel inserts mix with beautifully grained walnut, creating a discriminating interplay echoed in hardware and other well-chosen details. Add in modern convenience and smart storage for a room that is every inch Signature craftsmanship.

▲ Emphatic glamour. Dramatic backlighting. Total Light solutions are perfect for the unexpected ray of light in surprising places, while custom backlit panels let color set the mood, whatever direction your disposition takes.

▲ Open shelving is key to today's definition of modern design and allows a new way to expose your inner edge. With a strong linear attitude, open spaces become sharply defined and offer exciting ways to store and display.

▶ Long and lean, wide drawers are a smart accompaniment to modern living with superior storage and strong good looks. Perfect alone and even better together for up-to-date streamlined styling.

extravagant
practicality

Full Access construction adds as much as 10% more interior space to a cabinet. Pairing extra capacity with fabulous design elements tells the story you want to tell. Art and beauty coexist, the perfect footnote to a dramatic novella.

Tunisia. Quartersawn Oak Custom Finish and Maple Custom Paint.

SET YOUR STAGE

Color and texture. Form and function. The principles of design come together to create a space that speaks to who you are. Let the rhythm of design be punctuated with pizzazz. Unexpected elements of asymmetrical shelving and capiz shell lighting pair with warm woods and cool concrete to create a juxtaposition of textures and shapes that integrate seamlessly into the panorama of your life.

interior access

Here is where beautiful design turns very, very useful. Full Access cabinetry provides a bit more interior space and functionality. Accessibility? What a delight! As always, Signature ensures accessories and well-crafted details are all part of the mix.

▶ Easy in, easy out! See your way fully, reach with confidence. Plates, bowls, platters and artwork: everything takes its place neatly. And, beautiful visibility for our upgraded maple interior.

◀ Ease of use, easy to use. What's the difference? Our touch lift cabinet gives you both. With an electric lift option, the easy open mechanism can almost be classified as a hands-free device.

▼ More than you had hoped for. Every drawer can be configured with the organization you require, perfected for the precision you desire. With the added interior space of Full Access construction, more just became even more!

▲ From gorgeous dovetails to exactly specified organizers, every inch of space can be custom-made to your satisfaction.

▶ A wealth of storage accessories are available with our new Full Access cabinets, giving you an abundance of creative opportunities. Take our touchless trash for example: who wouldn't want this added convenience when clearing the after-party?

timeless
elegance

Full access is best when it's Full Access by Signature. The exquisite care that goes into each furniture-quality Signature cabinet is now paired with an enhanced functionality. Maximum storage. Magnificent looks.

Brookside 5-Piece Raised Drawer. Cherry Pumice.
Riff Inset-Non Beaded. Cherry-Chestnut.

THE CLASSICS, UPDATED

Classic style. Classic scale. This welcoming home brings together innovation and Signature quality. Full Access cabinetry pairs with the traditional styling of inset cabinetry for a one-of-a-kind design. From the custom designed range hood to the light-filled furniture piece that punctuates the living space, this beauty is much more than skin deep.

full access, the signature story

Full Access cabinetry increases the available storage space for any busy home. With Signature, choose from modern, full access styling, the time-honored treasure of inset design, or the established methodology of framed construction, all with premier Signature quality throughout, every feature you need, every desire you wish for, all from Signature.

► Our smoothly sanded and finished dovetail drawer shows Signature quality in action. Whether framed or Full Access construction, our components all have the highest level of craftsmanship.

Full Access

Framed

◀ Soft close drawers ensure a smooth, controlled closure, one of the many great included features that make any Signature construction platform your perfect choice.

▲ Freedom of choice. The sleek styling of Full Access features a slightly larger drawer sliding into the cabinet box, while the framed application utilizes a slightly smaller drawer. Choose the perfect solution for you—it's a matter of personal choice.

Full Access

Framed

◀ Open or shut case: framed and Full Access cabinetry require different hinges. The Full Access image shows the hinge attached directly to the cabinet box. Full Access hinges clip off handily for ease in installation and cleaning. The framed cabinet image illustrates how the hinge attaches to the frame.

▶ Both Full Access and framed construction are available with Signature quality and attention to detail.

Full Access has a cleaner appearance and features more interior space. Or, you may prefer the traditional interior style of framed cabinet box construction.

Full Access

Framed

◀ Full Access interior: sleek styling with handy access to dishes and supplies. Framed interior: a composed, "tucked-in" style for those who prefer a more tailored look.

Full Access

Framed

clearly new

Feeling a modern aesthetic? Our expanded offerings include a sleek door style and on-trend treatment that increase the Signature presence in crisp, modern-friendly styles and features. They could be defining elements of an ultra-modern design. They could be stylishly integrated into a transitional scheme. What do you think? It's your imagination.

GLORIES OF WALNUT

Richly simple and refined in a suave new door style. Walnut's dramatic grain structure plays out in a horizontal format on this new veneer slab door. Capture the essence of warm contemporary, Asian, or Mid-Century design in the mix you choose to create.

TARIN

- Veneer slab door
- Horizontal grain (Grain will not match through adjoining cabinets)
- Mitered corners
- Available in Walnut species only
- All Walnut finishes apply

YOUR GRAY REPERTOIRE EXPANDS

PUMICE. Love those fashionable minerals and frosts? Thinking Pacific Northwest, soft rain? Pumice is a gorgeous new spatter gray in a semi-translucent finish that leaves the grain of the wood slightly muted yet quietly assertive through the stain. This weathered tone works wonderfully in many settings.
